Breakbulk, bulk & project cargoes

Port of Loviisa

The Port of Loviisa serves the main owner, Port of Helsinki, as a conventional port choice for customers mainly in breakbulk and bulk cargoes. It is a flexible service centre specialised in the **mechanical forest industry** and **dry bulk**. Loviisa is located less than 100 km from Helsinki, Lahti and the Russian border, for example, and just 77 km from Finland's logistics artery, the Ring III road.
