

# VUOSAARI HARBOUR

|| PORT OF ||  
|| HELSINKI ||

Helsinki is Finland's leading port of unitized cargo traffic. It also has wide connections to major ports in Europe and destinations worldwide. The offering is aided with a good balance of import and export cargo flows via its harbours.

## Vuosaari – the prime cargo hub

**The Port of Helsinki** has cargo traffic via four harbours (Vuosaari, Katajanokka, South and West Harbours), the prime cargo hub of them being Vuosaari. The Vuosaari Harbour handles break bulk, container and ro-ro traffic. The harbour is growing and preparing for growth.

**Vuosaari harbour has a business environment and offerings that deliver benefits for Your cargo:**

- **Ideally located** near all major population and logistic distribution centers in the Greater Helsinki Area, but efficiently aside of the city traffic itself (18 km from the Helsinki City center)
- **The location** with excellent hinterland connections enable a flexible and fast movement of goods (20 min to the Helsinki Airport, port railway joining the main railway line at Kerava, highway-like Satamatie smoothly joining Ring Road III)

**“Where Do Global Shipping Routes finally Meet?”**

**– In The Port Of Helsinki!**

- **Balance** in import and export – an excellent availability of containers, trailers and other units
